

Wildfire Liaison - Colorado

RedZone Disaster Intelligence LLC. is seeking a *seasonal* Wildfire Liaison for the state of Colorado. This position will provide strategic and operational guidance for company managers and on-scene mitigation resources conducting structure preparation and structure defense assignments for its customers on active wildfires. The Wildfire Liaison will interface with incident command post personnel, incident management team personnel, fire authority officials, and other public safety officials at an assigned incident. Because natural disasters are unpredictable, working hours may vary and the candidate must be willing to work flexible hours including overnight, on weekends and during holidays.

PRIMARY RESPONSIBILITIES

Duties will include gathering incident intelligence and reporting information. Other responsibilities will include outreach and assisting negotiations for access agreements under the direction of RedZone management. The position will also be involved in public outreach and in building positive relationships within the wildfire response community. The duties will involve representing RedZone and its customers during large wildfires, primarily within the Front Range and mountain communities in Colorado with occasional assignments throughout the Western United States. Typical duties include:

- Representing RedZone and its customers to the fire service community
- Intelligence gathering and analysis on active wildfires and other nationwide disasters
- Coordinating team activities with fire departments, government agencies, insurers, and the general public
- Providing expert advice to RedZone management and its customers

QUALIFICATIONS

Successful applicants are required to have at least five years of wildfire operations and leadership experience. Candidates should be qualified in one or more of the following positions: Battalion Chief, Strike Team Leader, Operations Chief, Structure Protection Specialist, and /or equivalent. Applicants must be technically focused, computer literate, and be able to acquire new skills quickly. RedZone is seeking candidates who live in or near the Colorado Regions of the Front Range or in or near Summit County.

All applicants must be able to pass a background check, drug test, possess a valid "real" driver's license, and maintain a clean driving record. A valid passport is desirable, but not required. The position will require on-call availability during the wildfire season (June-Nov). This is a term employee position without benefits. Wildfire personal protective equipment and other tools and equipment will be provided. Compensation is commensurate with the experience of the candidate.

CORE VALUES

1. Instinctive Technologist
2. Absolutely Reliable
3. Can-Do Attitude
4. Love Process
5. Serve the Greater Good
6. Continuous Improvement
